9. "I was referred to Lily Ohana of Homestat through a real estate professional. She arrived on schedule and I was impressed by her high degree of knowledge and professionalism – this translated in all my questions being answered, a desire to explain details and the thoroughness of her report. Her report helped me assess the condition of this specific property which I ultimately walked away from. A few months later, I called upon Lily again to look at another home. Her service was again impeccable which confirmed to me that our first meeting was not a randomly lucky one. Her report and comments helped me conclude that I was now buying the right property. When it comes to the purchase/investment of something as important as real estate, you need to know that the inspection is thorough and has addressed all questions. In these times where standards are often diluted by lack of knowledge and sense of courtesy, I highly recommend that you deal with Lily Ohana. You will not be disappointed – thanks Lily". - **P. Jeurond**
